

Happy 4<sup>th</sup> Of July

*Hope you are all well and holding up during these trying times that we continue to go through.*

*Welcome to ASPA's recent Partners:*

**PatientPop:** *makes it easy for independent providers to thrive with solutions to promote their practice online, attract patients, and retain them for life.*

**Wellnet Healthcare Billing:** *Our commitment is to provide a customer-focused billing service that is based on being your partner so that you can focus on patients, their families, staff, and other health care partners.*

**Aqua Chill:** *Drinking water systems that are sanitary, cost effective and easy.*

**MedTrainer:** *Learning, Compliance, Credentialing/Accreditation*

**Doctors Choice.** *A Great New Opportunity for Medical Professionals: Association Health Plans Especially for You and your Employees.*

*Save up to 20% or more per employee per year on comprehensive health plans, totally innovative new platform:*

*Call us at (602) 265-2524 ext 210 or send us an email at [karen@azspa.com](mailto:karen@azspa.com)*

**Health Plan News:**

*Banner University will no longer be taking new Providers, you will only be added if you belong to a group that is currently contracted with Banner through ASPA.*

**FYI: Primary Care Providers, If you are considering a Direct Contracting Model (Global and Professional Options) and you currently are part of an ACO:**

*Participant TINs are only permitted to participate in one shared savings model at a time. If the direct contracting model is also considered a shared savings model than the participant TIN would need to decide which program they want to continue in. If CMS sees there is a duplication they may remove them from an ACO participant list **and they may also be removed** from the other shared savings program as well (there are some variables here including the last dates to add/delete TINs for each program and whether they are currently participating in a shared savings model) If participants are removed from an ACOs participant list CMS would not assign any beneficiaries linked to that TIN. If you are already part of ASPA Connected, please call us if you are considering participation in this program. Please note ASPA CC achieve shared savings for year 2018 and things look good for 2019 as well. We share the majority of the funds with our participants!*
