

Refugee Health Training

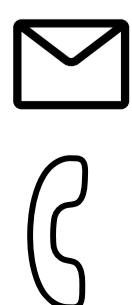

Free trainings to healthcare providers and community members on Refugees and Asylees. Trainings are developed to promote the understanding of the unique needs of refugees. Combined with identifying the best practices and strategies to develop linguistically and culturally responsive services.

Training Topics:

- **Refugee 101**
- **Refugee Community Profile**
- **Refugee Behavioral Health**
- **Working with Interpreters**
- **Women's Health and Female Genital Mutilation**
