Fraud Waste and Abuse Training

ASPA is contracted with plans that have Medicare and AHCCCS products. It is a requirement of ASPA through our delegation with our contracted plans, we show proof that our Members are in compliance with all training and privacy requirements under CMS and AHCCCS. This must be completed annually.

AHCCCS NEWS

Thousands of AHCCCS providers to be terminated for non-compliance. In the first month of its planned process to terminate non-complaint providers, AHCCCS has identified 5,288 providers who have not taken the required action to maintain their registered status.

The process to revalidate registered providers begins November 2022 with letter mailed to the first group providers. They were asked to revalidate in the AHCCCS provider enrollment portal (APEP) within 90 days. Only 8% took the action requested to maintain their registration. The 5,288 who did not comply will be terminated in February.
